for Open Space Acquisition, Park Development
and Stewardship Projects

Recommendations for Funding

Mikie Sherrill
Governor

Ed Potosnak
Acting Commissioner

THE GREEN ACRES MISSION

To achieve, in partnership with others, a system of interconnected open spaces, the protection of which will preserve and enhance New Jersey's natural environment and its historic, scenic, and recreational resources for public use and enjoyment.

General Overview

In 2026, the New Jersey Department of Environmental Protection (DEP) Green Acres Program will invest more than $90 million in funding to 102 local governments and nonprofit land trusts to acquire open space, develop parks, and perform stewardship activities on parks in every county in New Jersey. This round of project approvals recommended to the Garden State Preservation Trust (GSPT) includes:

- $23.2 million for 28 local (municipal and county) land acquisition projects,
- $51.5 million for 53 local developments of parks and recreational facilities,
- $0.8 million for 4 local stewardship projects,
- $9.6 million for 8 acquisition projects by nonprofit organizations,
- $5.2 million for 8 nonprofit recreational development, and
- $0.3 million for 1 nonprofit stewardship projects.

The $90.6 million in Green Acres funding comes from the Corporate Business Tax, through the Preserve New Jersey Act (P.L. 2016, c. 12), the enabling legislation for funding approved by voters in 2014. Additional funding comes from loan and interest repayments, interest earnings, and previously approved projects that did not come to fruition.

New Jersey's Green Acres program was created in 1961 to meet the state's growing recreation and conservation needs. Together with public and private partners, Green Acres has protected over 725,000 acres of open space and provided hundreds of outdoor recreational facilities in communities around the state. The total acreage of protected open space, parkland, and farmland across New Jersey exceeds 1.6 million acres.

The protection of New Jersey's environmentally sensitive open space, vital water resources and significant natural and historic resources is critical to the quality of life enjoyed by all New Jerseyans. Preserved open space protects our water supply, preserves sensitive habitats for endangered and threatened species, promotes smart growth and provides a place for public recreation and connection with community and nature.

Green Acres continues to focus on projects that meet the Department's priorities. Applicants were encouraged to formulate projects that anticipate and address climate change impacts, advance long-term resilience goals, provide equitable and meaningful public access, and maximize social, environmental, and health benefits to the public, particularly within Overburdened Communities subject to Adverse Cumulative Stressors, those communities that experience a greater than average load of environmental and public health stressors. Over 53% of all awards are for projects located in or easily accessible (within a ¼ mile) from Overburdened Communities subject to Adverse Cumulative Stressors.

New this funding round:

- All park development projects are now eligible for a minimum of 25% grant funding, including those sponsored by local governments that were historically only eligible for loans.
- Acquisition and park development projects located in or easily accessible from (less than ¼ mile away with no barriers to pedestrian access) Overburdened Communities subject to Adverse Cumulative Stressors are eligible for increased (by 25%) grant percentages.*

- All counties are now eligible for a minimum of 50% grant funding for park developments, including those that were previously eligible for 25% grants or only loan funding.
- Completely Inclusive Playgrounds will be funded under the Park Development category and will be eligible for increased (by 25%) grant percentages (i.e., an applicant normally eligible for 25% development grant funding would be eligible for 50% grant funding for a CIP project).*
- Nonprofit park development projects are no longer limited to urbanized locations. Nonprofits can apply for park development funding for projects located anywhere in New Jersey.

*(*Applicants are not eligible for cumulative bonuses, such as for a CIP in an ACS/OBC.)*

New Jersey is home to nearly every kind of recreation opportunity. Public lands acquired and improved with Green Acres funding provide for fishing, hiking, boating, skiing, birding and simply spending time in the great outdoors. Whether you want to "take me out to the ballgame" or get sand between your toes, New Jersey's public open spaces provide countless ways to play.

Local Acquisition Projects

Green Acres provides grants and 30-year loans to assist local governments in the acquisition of open space for recreation and conservation purposes. Once again, all Green Acres loans will be offered at zero-percent interest, rather than at low-interest, in an effort to reduce the financial impact on local government applicants. In this funding round, $23.2 million in grants and loans is being approved for 28 local (county and municipal) land acquisition projects across the State. Funds were made available for projects in several categories:

- **Urban Aid Acquisitions**: Urban Aid acquisition projects are eligible for a 75% grant, with the balance available as a 0% loan (if requested), up to the funding round cap. (The list of Urban Aid municipalities is attached as Appendix 3.) This round, projects located in or easily accessible from ACS/OBCs are eligible for 100% grants.

- **Planning Incentive Acquisitions**: This category is for local governments that have passed and are collecting a tax for the acquisition of land for recreation and conservation purposes and have prepared the required Open Space and Recreation Plan to guide the expenditure of these funds. Applications are streamlined because the local government has done the required planning when preparing its Open Space and Recreation Plan, which basically serves as its application. Funding is in the form of a 50% matching grant (75% for Urban Aid municipalities), up to the established cap.

- **Site-Specific Incentive Acquisitions:** This category is for local governments that have passed and are collecting an open space tax but do not yet have the required Open Space and Recreation Plan. While they receive the same 50% grant funding as the Planning Incentive projects (75% for Urban Aid municipalities), applicants must submit individual applications for each site they want to acquire. This round, sites located in or easily accessible from ACS/OBCs are eligible for increased grant percentages.

- **Standard Acquisitions**: Local governments that have yet to pass an open space tax, have a tax below the required ½ cent rate, or are not collecting their open space tax, qualify for a 25% matching grant with the balance provided as a zero percent interest loan (if requested), up to the established cap. These applications are for a specific parcel. This round, projects located in or easily accessible from ACS/OBCs are eligible for 50% grants.

Local Recreational Facilities Development Projects

For the first time, all applicants are eligible for a minimum of a 25% grant for their park development projects, even those applicants that had previously only been eligible for loans. Green Acres provides grants and 20-year 0% interest loans to assist local governments in the development of land for conservation purposes and to meet

diverse recreation needs. To meet New Jerseyans' needs, Green Acres funds different types of parks in a variety of settings. This round of projects includes $51.5 million in grants and loans for 53 local (county and municipal) recreational park development projects in urban, suburban or rural areas across the state.

- **Urban Aid park development**: The provision of recreational facilities in New Jersey's densely developed cities is a high priority for Green Acres. The Preserve New Jersey Act reinforced this priority by increasing the grant ratio for Urban Aid projects from 50% to 75%, with a provision to increase it to 100% for special needs or circumstances. These projects are eligible for the balance as a loan (if requested), up to the funding round cap, if the applicant requests it. This round, projects located in or easily accessible from ACS/OBCs are eligible for 100% grants.

- Park development projects sponsored by **counties** will receive 50% grant funding, with the balance as a loan (if requested), up to the cap. This round, projects located in or easily accessible from ACS/OBCs are eligible for 75% grants.

- **All other park development projects** will receive a 25% grant, and a loan (if requested), up to the established cap. This round, projects located in or easily accessible from ACS/OBCs are eligible for 50% grants.

Completely Inclusive Playgrounds (Jake's Law)

The Green Acres Completely Inclusive Playgrounds (CIP) Pilot Program has ended, but incentivized funding for CIPs is available through our Park Development category. The pilot program of the last three years proved highly successful, resulting in Green Acres approval of nearly 100 playgrounds designed in compliance with standards set in the Department of Community Affairs' regulations (N.J.A.C. 5:23-7.19, 7.31, 11.2, and 11.4)) that were developed pursuant to Jake's Law (P.L. 2018, C. 104). Completely Inclusive Playgrounds are still a high priority for Green Acres; such applications are eligible for an additional 25% grant, beyond the grant percentage awarded based on the project category.

Nonprofit Projects

Green Acres has had a long and successful relationship with the many nonprofit land trust organizations that preserve open space throughout New Jersey, which range from small, local groups to large, international organizations. Nonprofit organizations also serve a much-needed recreational development role. Nonprofit organizations can receive 50% matching grant funding for land acquisition, park development, and stewardship projects. For the first time, nonprofits can sponsor a park development project anywhere in the state; the requirement that it be located in an urbanized area has been lifted.

This year, approximately $9.6 million is being awarded to eight nonprofit organizations for land acquisition projects. Nonprofits are receiving more than $5.2 million for eight park development projects.

Stewardship Projects – Local and Nonprofit

The Preserve New Jersey Act established a funding category for stewardship activities by local governments and nonprofit organizations on lands held for public recreation and conservation purposes. The Act defines stewardship as "an activity, which is beyond routine operations and maintenance…to repair or restore lands acquired for recreation and conservation purposes for the purpose of enhancing or protecting those lands for recreation and conservation purposes."

In developing this funding program, Green Acres solicited input from local governments, nonprofits, and natural resource professionals. Based on these discussions, Green Acres decided to focus the limited Stewardship funds on natural resource and conservation projects and limited passive recreation, not on active

recreation facilities.

Awards for local stewardship projects in Urban Aid municipalities are in the form of a 75% matching grant. Local projects in the remaining municipalities, and all nonprofit projects, will receive 50% matching grant awards. This year, Green Acres is approving nearly $850,000 for four local stewardship projects and almost $300,000 for one nonprofit stewardship project.

Appendix 3 describes the funding formula used to determine awards.

Funding for all Green Acres projects is contingent upon approval by the Garden State Preservation Trust and by the Legislature through the passage of an appropriation bill.

Atlantic County

Buena Borough
Bruno Melini Park Athletic Lighting
Buena Borough is proposing improvements to Bruno Melini Park, located at Park Drive off South Central Avenue. Proposed improvements include replacement of outdated lighting fixtures. This improvement will make the various designated 3 fields usable for evening sports. This park benefits an Overburdened Community with Adverse Cumulative Stressors.

$350,000 Matching Grant Award
$350,000 Loan Award
$700,000 Total Award
Park Development

Hammonton Town
Hammonton Lake Park Rec. Improvements
Hammonton Town is proposing improvements to Hammonton Lake Park, located at Sports Drive. Proposed improvements include an outdoor fitness course, permeable bocce ball courts, ADA accessible floating kayak launch, renovation of the existing pavilion to a new amphitheater building /event center, benches, grill, proposed outdoor fitness court, ADA walkways, and stormwater management basins. This park benefits an Overburdened Community with Adverse Cumulative Stressors.

$600,000 Matching Grant Award
$150,000 Loan Award
$750,000 Total Award
Park Development

Somers Point City
Kern & Fehrle Field Improvements
Somers Point City has requested funding to improve Kern Field, located off Marks Road, and Fehrle Field, located off 3rd Street. Proposed improvements include rehabilitation of the existing track surface, drainage improvements for the existing football field and renovation of the bathroom/snack stand at Kern Field, along with improvements to the softball building, little league building and Babe Ruth Building at Ferhle Field. Both sites are located across the street from each other. These improvements will ensure continued use of these active facilities which form the active recreation hub in the city. This park benefits an Overburdened Community with Adverse Cumulative Stressors.

$350,000 Matching Grant Award
$350,000 Loan Award
$700,000 Total Award
Park Development

Somers Point City
DeFeo Lane Nature Trail
The City of Somers Point is proposing improvements to DeFeo Lane Trail, located off DeFeo Lane. Proposed improvements include creation of a Nature Trail with signage that will provide passive recreation and viewing platforms with fencing that will create visual access to the Patcong Creek. This project benefits an Overburdened Community with Adverse Cumulative Stressors.

$116,461 Matching Grant Award
Stewardship Project

Bergen County

Bergen County
Riverside County Park South
Bergen County is proposing improvements to Riverside County Park South, located in Lyndhurst Township and North Arlington Borough. Proposed improvements include a new all-access point at Park Street and a footpath connection at the Bergen Avenue and River Road intersection; an extended walkway system with footbridges and lighting; fitness stations; a playground and spray park with safety surfacing; riverfront overlooks; a relocated baseball field; and a pavilion. Landscaping, site furnishings, fencing, utilities, and stormwater management improvements are also proposed. This park benefits an Overburdened Community with Adverse Cumulative Stressors.

$1,875,000 Matching Grant Award
Park Development
Highly Populated County

Englewood City
Denning Park Improvements
Englewood City has requested funding to improve Denning Park, located between Lafayette Place and Harold Avenue. Proposed improvements include rehabilitating the natural grass athletic field and basketball court, and the addition of a dog park, an asphalt walking circuit, a playground, and exercise equipment. The city also proposes the rehabilitation of the perimeter fencing and the addition of a parking lot, a stormwater basin, bathroom and concession area, a picnic table area, trash and recycling receptacles, shade shelter, and ADA accessible bleachers at the site. These improvements will increase the use of the park by its residents because of the addition of new facilities and lighting, allowing residents to enjoy the park in the evening. This park benefits an Overburdened Community with Adverse Cumulative Stressors.

$1,050,000 Matching Grant Award
Park Development
Highly/Densely Populated Municipality

Fairview Borough
444 North 8th Street Acquisition
Fairview Borough has requested funding to acquire a previously developed, now vacant 0.115-acre property, located at 444 North 8th Street. Proposed future use of the site includes creating a pocket park with a playground, adult fitness equipment, benches, and landscaping. Preservation of this site will prevent the development of additional impervious surfaces contributing to local flooding challenges, which often disproportionately impact overburdened communities. This park benefits an Overburdened Community with Adverse Cumulative Stressors.

$300,000 Matching Grant Award
Standard Acquisition

Hackensack City
155 Main Street Land Acquisition
Hackensack City is proposing to acquire the 0.2-acre property, located at 155 Main Street. Proposed future use of the site includes the creation of a pocket park. Preservation of this site will expand the city's recreational assets by providing access to green space within densely populated neighborhoods, enhancing community well-being and introducing natural elements that help mitigate heat islands and stormwater impacts. This park benefits an Overburdened Community with Adverse Cumulative Stressors.

$1,400,000 Non-Matching Grant Award
Land Acquisition
Urban Aid Municipality

New Milford Borough
Kennedy Tennis Courts Improvement
New Milford Borough has requested funding to improve Kennedy Field Park, located at 845 Robert K. Chester Way. Proposed improvements include resurfacing the tennis courts, installation of new tennis nets, posts, and appurtenances, and the installation of field lighting. The Borough also proposes to include pavement reconstruction. These improvements will improve user experience at existing recreation areas and support player safety. This park benefits an Overburdened Community with Adverse Cumulative Stressors.

$421,292 Matching Grant Award
Park Development
Highly/Densely Populated Municipality

Teaneck Township
Sagamore Park Improvement Project
Teaneck Township is proposing improvements to Sagamore Park, located at 900 Windsor Road. Proposed improvements include a new playground, restrooms, grading, drainage improvements and site amenities. This project will improve the site's overall recreational capacity and make it more aesthetically pleasing, safer, and better able to serve the needs of the public. This park benefits an Overburdened Community with Adverse Cumulative Stressors.

$175,000 Matching Grant Award
Park Development
Highly/Densely Populated Municipality

Waldwick Borough
197 Wykoff Avenue Open Space Acquisition
Waldwick Borough has requested funding to acquire the 2-acre property, located at 197 Wykoff Avenue. Proposed future use of the site includes a passive recreational park with a walking trail or pathway, seating areas, shaded structures such as a gazebo, water feature, ornamental gardens and/or raised flower beds, a composting area and a small playground. Preservation of this site will provide a new neighborhood-scale open space within walking distance of surrounding homes and educational facilities.

$700,000 Matching Grant Award
Site Specific Incentive Acquisition

Wood-Ridge Borough
Wood-Ridge Recreation Complex Acquisition
Wood-Ridge Borough is requesting supplemental funding toward the acquisition of an 11.8 acres property, located on Johnson Drive. The project site, which abuts a new residential development, is a portion of the former Curtiss Wright industrial complex. Potential future development includes both active and passive uses, such as field sports, a playground and shelter, restrooms, a multi-purpose trail, and a dog run. A multi-purpose grassy field is also planned for open play and community events. This site will benefit an Overburdened Community with Adverse Cumulative Stressors.

$1,350,000 Matching Grant Award
Standard Acquisition

Burlington County

Burlington City
William Allen School Park Improvements
Burlington City has requested funding to improve William R. Allen School Park located at 400 Mitchell Ave. Proposed improvements include basketball court resurfacing, bleachers, installation of playgrounds for 2–5-year-olds and 5–12-year-olds, and multi-use grass fields. The City also proposes an underdrain system beneath the playgrounds, benches, rain garden, pavilion, ADA-compliant walkways, landscaping, and fencing. These improvements will enhance access to green space, recreational opportunities, and environmental quality. This park benefits an Overburdened Community with Adverse Cumulative Stressors.

$480,500 Matching Grant Award
$269,500 Loan Award
$750,000 Total Award
Park Development

Riverside Township
Riverdel Woodlands Acquisition
Riverside Township is proposing to preserve a 4.2-acre property located at the intersection of Whittaker Street and Fairview Street. Proposed future use of the site includes passive recreation such as hiking and birdwatching and environmental education programming. Preservation of this site will provide opportunities for trail connectivity with neighboring open space in Delran Township and protect one of the only remaining forested tracts in Riverside Township, supporting wildlife habitat and expanding options for passive recreation in a highly developed area. This site will support an Overburdened Community with Adverse Cumulative Stressors.

$250,000 Matching Grant Award
$250,000 Loan Award
$500,000 Total Award
Standard Acquisition

Camden County

Audubon Borough
Audubon Family Park Improvements
Audubon Borough is proposing to create a new playground at Audubon Family Park, located at 600 Hampshire Avenue. Proposed improvements include new playground equipment and safety surfacing. The Borough also proposes a paved walkway to support the playground. These improvements will transform Audubon Family Park into a more accessible and resilient recreational hub.

$ 125,000 Matching Grant Award
$ 375,000 Loan Award
$ 500,000 Total Award
Park Development
Densely/Highly Populated Municipality

Camden City
Union Field Improvements
Camden City is proposing improvements to Union Field, located at 1200 South Merrimac Road. Proposed improvements include installation of a new playground, and a new track that can be used for walking and running. The City also proposes irrigation and landscaping improvements at the project site. These improvements will increase accessible recreational infrastructure within the community, improving quality of life and enhancing the City's park landscape. This park benefits an Overburdened Community with Adverse Cumulative Stressors.

$1,350,000 Non-Matching Grant Award
Park Development
Urban Aid Municipality

Gloucester Township
Community Park Improvements
Gloucester Township has requested funding to improve Community Park, located at 380 Hickstown Road. Proposed improvements include construction of a multi-generational playground and outdoor fitness area, a picnic pavilion area, and an accessible walkway. The Township also proposes to include landscaping, trash receptacles, and benches. This project will provide a multi-generational play area designed to accommodate users of all ages, transforming the park into a connected hub for inclusive fitness, gathering, and recreation. This park benefits an Overburdened Community with Adverse Cumulative Stressors.

$1,325,000 Non-Matching Grant Award
Park Development
Urban Aid Municipality

Haddon Township
Crystal Lake Park Soccer Fields
Haddon Township is proposing improvements to Crystal Lake Park, located at West Park Boulevard and West Crystal Lake Avenue. Proposed improvements include restoration of existing soccer fields and irrigation improvements including a new drainage system. The Township also proposes to restore the existing riparian buffer zone and install park amenities including trash receptacles and park signage. These improvements will increase accessibility to the park's soccer fields and allow the community to enjoy the surrounding lakefront park environment.

$105,225 Matching Grant Award
Park Development
Densely/Highly Populated Municipality

Pennsauken Township
Lena Skelly Park Project
Pennsauken Township has requested funding to improve Lena Skelly Park, located at Clayton Avenue and Horner Street. Proposed improvements include installation of a new inclusive playground, and rehabilitation of existing basketball and volleyball courts. The Township also proposes a pavilion and picnic grove at the site. These added improvements will provide both active and passive recreation opportunities in an accessible, and neighborhood centered setting, while serving people of all age groups. This park benefits an Overburdened Community with Adverse Cumulative Stressors.

$918,179 Non-Matching Grant Award
Park Development
Urban Aid Municipality

Cumberland County

Bridgeton City
Improvements to Rec. Facilities in City Park
Bridgeton City has requested funding for various facilities in City Park, located at Scholastic Drive and Mayor Aitken Drive. Specifically, the City proposes to rehabilitate the interior and exterior of the existing City Park Office & E-Sport Center (Block 283, Lot 1) along with improvements to the existing parking area to include ADA spaces, adding walkways and installing site lighting. Additionally, the City proposes to rehabilitate the existing Cohanzick Zoo Administration & Learning Center (Block 280. Lot 1) through the expansion of the recreational and educational programming hosted by the Cohanzick Zoo and Recreation Department. The City will rehabilitate and repurpose the existing Administrative Building which serves as the primary support facility of outdoor recreation and construct an additional structure known as the Zoo Learning Center Building which will allow the Zoo to incorporate an outdoor component in their educational programming. Additionally, there will be construction of an outdoor stage, seating, and a walkway. This park benefits an Overburdened Community with Adverse Cumulative Stressors.

$1,138,112 Non-Matching Grant Award
Park Development
Urban Aid Municipality

Vineland City
Howard Pagliughi Park Improvements
Vineland City is proposing improvements to Howard Pagliughi Park, located at 2245 Magnolia Road. Proposed improvements include a walking track, shaded fitness station, pickleball courts and upgrades to existing parking facilities. These improvements will incorporate multiple uses, providing active recreation opportunities through additional equipment for all ages. This park benefits an Overburdened Community with Adverse Cumulative Stressors.

$1,180,000 Non-Matching Grant Award
Park Development
Urban Aid Municipality

Essex County

Essex County
Turtle Back Zoo African Adventure Exhibit
Essex County has requested funding to improve the Turtle Back Zoo African Adventure Exhibit, located at 560 Northfield Avenue in West Orange Township. Proposed improvements include a new Hoofstock Barn to provide space for the critically endangered Eastern Bongo, and providing a building area within the Giraffe Barn to add the Plains Zebra, a new species to be introduced to the Turtle Back Zoo. The County also proposes a small water feature, additional natural feeding locations, and new birthing areas for hoofstock animals. These improvements will ensure the general welfare and health of the animals within the African Adventure enclosure, as well as expanding upon educational and recreational needs for visitors. This park benefits an Overburdened Community with Adverse Cumulative Stressors.

$2,250,000 Matching Grant Award
Park Development
Densely Populated County

Belleville Township
Municipal Stadium Grandstand Improvements
The Township of Belleville has requested supplemental funding to improve Belleville Municipal Stadium, located at 81 Nolton Street. Proposed improvements include structural and accessibility renovations to grandstands and restrooms, reconstruction of concrete stands for wheelchair accessibility, and concession stands. These improvements will ensure residents and visitors of all abilities can utilize this important community asset. This park benefits an Overburdened Community with Adverse Cumulative Stressors.

$1,500,000 Non-Matching Grant Award
Park Development
Urban Aid Municipality

Bloomfield Township
Bloomfield Township Third River Park and Preserve Acquisition
Bloomfield Township seeks additional Green Acres assistance towards the acquisition of a 12.7 acre property located along the Third River and Spring Brook and accessed by Lion's Gate Drive. The site, which was used historically for manufacturing, is situated in a highly developed area. The Township has acquired the site and restored the flood plain and associated wetlands, creating flood storage area and wildlife habitat. Passive and active recreation facilities have also been added. This park benefits an Overburdened Community with Adverse Cumulative Stressors.

$33,333 Non-Matching Grant Award
Land Acquisition
Urban Aid Municipality

East Orange City
Memorial Park Improvements
East Orange City is proposing improvements to Memorial Park, located at 30 Lenox Avenue. Proposed improvements include reconstruction of the basketball court, relocation of a sculpture and flagpole for implementation of new stormwater management system, reconstruction of the park entrance, and a new fitness area, playground, and spray park. These improvements will enhance safety, address water-damaged infrastructure, and provide new community recreational amenities at one of the city's most heavily used parks. This park benefits an Overburdened Community with Adverse Cumulative Stressors.

$1,500,000 Non-Matching Grant Award
Park Development
Urban Aid Municipality

Maplewood Township
Dehart Park Rec Improvements
Maplewood Township is proposing improvements to DeHart Park, located at 120 Burnett Avenue. Proposed improvements include rehabilitation of pedestrian paths, playground, and workout area, new picnic area, and rain garden. The Township also proposes installation of new benches, gazebos, landscaped park entrance, and shaded passive area at the site. These improvements will enhance the park's accessibility. This park benefits an Overburdened Community with Adverse Cumulative Stressors.

$967,500 Matching Grant Award
Park Development
Densely/Highly Populated Municipality

Montclair Township
Canterbury Park Improvements
Montclair Township is proposing improvements to Canterbury Park, located at 9 Planchet Drive. Proposed improvements include the rehabilitation of tennis courts, basketball court, playground, fitness equipment, and walking paths. The Township also proposes benches and landscaping at the site. These improvements will provide multiple recreational opportunities to the entire community and encourage residents to enjoy the outdoors. This park benefits an Overburdened Community with Adverse Cumulative Stressors.

$1,500,000 Non-Matching Grant Award
Park Development
Urban Aid Municipality

Newark City
Broadway Park
The City of Newark, in partnership with the Trust for Public Land, plans to develop Broadway Park for passive and active recreation. Broadway Park, which was acquired with Green Acres funds, consists of vacant lots located in the North Ward between Broadway and Oraton Street, adjacent to Luis Munoz Marin Elementary School. Proposed improvements include playgrounds, playing fields, additional lighting, art, rain gardens, and a community garden. This park benefits an Overburdened Community with Adverse Cumulative Stressors.

$489,000 Non-Matching Grant Award
Park Development
Urban Aid Municipality

Nutley Township
Monsignor Owens Park Facilities
Nutley Township has requested funding to improve Monsignor Owens Park, located at 75 Park Avenue. Proposed improvements include accessible bathroom renovations and pathway improvements. These improvements will strengthen the Township's ability to provide inclusive, accessible outdoor recreational amenities. This park benefits an Overburdened Community with Adverse Cumulative Stressors.

$398,580 Non-Matching Grant Award
Park Development
Urban Aid Municipality

Orange City Township
Metcalf Park Improvements
Orange City Township seeks supplemental funding for improvements to Metcalf Park, located at Chestnut Street and Valley Street. Proposed improvements include basketball court lighting, rehabilitation of concrete pool deck, resurfacing tennis court, installation of a passive play area, walking paths, and a dog park. These improvements will create safer, more readily usable recreational amenities through the park, and provide new opportunities for recreation. The passive play area will allow for more recreation surrounding the pool, and the dog park has been highly requested by the community. This park benefits an Overburdened Community with Adverse Cumulative Stressors.

$606,144 Non-Matching Grant Award
Park Development
Urban Aid Municipality

West Caldwell Township
Grover Cleveland Field Improvements
West Caldwell Township has requested additional funding to improve Grover Cleveland Middle School Field, located at 36 Academy Road in Caldwell Borough. The school is owned by the Caldwell-West Caldwell Public School District. Proposed improvements include replacing the existing field with a synthetic turf baseball field, new backstop and scoreboard, rehabilitated asphalt access driveway, fencing, bases, and associated grading, drainage, and utility improvements. The Township also proposes a new soccer goal system, dugouts, batting tunnels, lighting, and a new field house at the site. These improvements will allow for substantially increased usage of the field, while lowering current maintenance costs. Once funded, the site will be open to the public for use outside of school hours. This park benefits an Overburdened Community with Adverse Cumulative Stressors.

$750,000 Matching Grant Award
Park Development
Densely/Highly Populated Municipality

Gloucester County

Glassboro Borough
Elsmere Park Improvements
Glassboro Borough has requested funding to upgrade Elsmere Park, located at 375 Higgins Drive. Proposed improvements include removing old swings and constructing new playground equipment, renovating an existing pavilion, parking, installing new bleachers and benches, restriping an existing basketball court, ballfield improvements, lighting improvements, trail upgrades, dog waste stations, fencing, and landscaping.

Monroe Township
Amphitheater at Owens Memorial Park
Monroe Township is seeking additional funding for improvements to Owens Memorial Park, located at Tuckahoe Road. Proposed improvements include construction of an amphitheater with site lighting and electrical work, circulation paths, fencing, and a parking area. These improvements will enhance the recreational activities available at this popular facility.

$1,269,045 Matching Grant Award
Park Development
Urban Aid Municipality

Paulsboro Borough
Fort Billings Park Improvements
Paulsboro Borough is proposing improvements to Fort Billings Park, located off of Colnmell Street. Proposed improvements include rehabilitation of the existing parking area, construction of ADA-compliant walking trail, picnic pavilion with tables, pickleball courts, installation of park benches, trash and recycling receptacles, refurbishing existing bathrooms, signage and irrigation. These various improvements align directly with the top

priorities of the survey responses and will greatly enhance this existing park. This park benefits an Overburdened Community with Adverse Cumulative Stressors.

$543,000 Matching Grant Award
Park Development

Hudson County

Union City
Ellsworth Park Improvements Phase 2
Union City has requested funding to improve Ellsworth Park for the second phase of proposed work, located on the block bounded by Palisade Ave, New York Ave, 23rd Street and 24th Street. Proposed improvements include new walkways, block wall replacement, resurfaced playground, improved drainage and a new bathroom facility. The City also proposes new site furnishings and additional landscaping at the site. These improvements will improve the facilities at the site. This park benefits an Overburdened Community with Adverse Cumulative Stressors.

$1,400,000 Non-Matching Grant Award
Park Development
Urban Aid Municipality

Mercer County

Mercer County
Harlan Joseph Peace Park
Mercer County is proposing improvements to Harlan Joseph Peace Park, located at the intersection of Ewing Street and Southard Street in Trenton City. Proposed improvements include a stage, commemorative plaza and playground. The County also proposes shade structures and picnic tables at the site. These improvements will create a new park memorializing Harlen B. Joseph, bring shade and seating to an undeveloped space, and allow for community events at the park, bringing together the community and Trenton Rescue Mission. This park will an Overburdened Community with Adverse Cumulative Stressors.

$1,750,000 Non-Matching Grant Award
Park Development
Urban Aid Municipality/Highly Populated County

East Windsor Township
Etra Lake Park Inclusive Playground
East Windsor Township is proposing to replace an existing playground with a Completely Inclusive Playground at Etra Lake Park, located at 9 Disbrow Hill Road. Proposed improvements include removal of the existing playground features and installation of a Completely Inclusive Playground. The Township also proposes ADA accessible walkways and restroom upgrades to support the playground. These improvements will fulfill an unmet community need in East Windsor Township.

$622,500 Matching Grant Award
Park Development

Ewing Township
Completely Inclusive Playground
Ewing Township is proposing to create a Completely Inclusive Playground at Ewing Senior & Community Center, located at 999 Lower Ferry Road. Proposed improvements include installation of a Completely Inclusive Playground, surfacing with drainage, fencing, shade structures and a quiet play area/sensory garden. The Township also proposes benches, ramp and accessibility updates, as well as lighting, waste receptacles and drinking fountain improvements at the site. These improvements will upgrade the playground and help to promote a healthier lifestyle for the surrounding community while creating a more inclusive play space for multiple age groups. This park benefits an Overburdened Community with Adverse Cumulative Stressors.

$939,692 Matching Grant Award
Park Development
Densely/Highly Populated Municipality

Hamilton Township
Sayen Gardens Restoration Project
Hamilton Township is requesting funding to complete the pond restoration at Sayen Gardens located at 155 Hughes Drive. The project will make restorative improvements to two ponds in the garden. At pond #1, the township will remove invasive vegetation from the stream ramble and lower pond. Additionally, dredging will be done to remove silt and sedimentation. At pond #2, an existing koi pond, rubber liner, filters and related infrastructure will be replaced with a new pond filtration system. Additionally, a well system will be repaired or replaced.

$11,333 Matching Grant Award
Densely/Highly Populated Municipality
Stewardship Project

Princeton
Princeton Ridge East Forest Restoration
The Municipality of Princeton is proposing improvements to Princeton Ridge East, located at 725 Herrontown Road. Proposed improvements include removal of invasive species, construction of deer fencing, and planting native trees and shrubs. The municipality also proposes native grasses and forbs seeding at the site. These improvements will create space for native trees and shrubs, prevent deer browsing and buck rub, and increase native biodiversity to suppress invasive regrowth while reducing edge effects in the forest. This site benefits an Overburdened Community with Adverse Cumulative Stressors.

$150,000 Matching Grant Award
Stewardship Project

Middlesex County

Middlesex County
Metuchen Trailhead Park
Middlesex County has requested funding to create Metuchen Trailhead Park, located at 675-739 Middlesex Avenue in Metuchen. Proposed improvements include a welcoming central green space, tiered seating overlooking the lawn, and pedestrian pathways. The project will also provide shade structures, picnic and play areas, parking, permanent bathrooms, and increased access to the existing Middlesex Greenway. The County also proposes

irrigation improvements and tree plantings at the project site. The combination of informal play areas and passive open space creates a highly inclusive environment that supports a wide range of recreational preferences and community uses. This park benefits an Overburdened Community with Adverse Cumulative Stressors.

$1,875,000 Matching Grant Award
Park Development
Highly Populated County

Carteret Borough
Arthur Kill River Walk North
Carteret Borough plans to expand its Waterfront Park, located along the Arthur Kill off Industrial Highway. Proposed improvements will consist of the extension of an ADA-accessible waterfront walkway north from the Waterfront Park to Noes Creek, including boardwalk, railing, lighting, and site furnishings. A portion of the walkway will extend out over the water for a scenic overlook. The new walkway will increase the public's access to the Arthur Kill and offer a passive recreational resource for all ages. The park benefits an Overburdened Community with Adverse Cumulative Stressors.

APPENDIX 3

LOCAL FUNDING FORMULA

Green Acres continues to base awards to local governments on a formula that provides additional funding to cities and older densely developed suburban communities. Green Acres established a system that factors in the total population or population density of a municipality or county. The recommendations to the Garden State Preservation Trust reflect the following factors, assuming a "base award" is presented to those municipal sponsors outside of the population centers:

County sponsors:

- Densely populated (More than 5,000 people per square mile) — **3 times the base award**
- Highly populated (More than 1,000 people per square mile) — **2.5 times the base award**
- Less than 1,000 people per square mile — **2 times the base award**

Municipal sponsors:

- Urban Aid — **2 times the base award**
- Densely/Highly Populated — **1.5 times the base award**
  (Densely populated: more than 5,000 people per square mile)
  (Highly populated: more than 35,000 total population)
- All others — **Base award**

The base award vary with each funding round based on total requests, funding availability, and project priorities. For the 2026 funding round, the base award is $900,000 for acquisitions and $750,000 for park development and stewardship projects.

Project award caps are:

COUNTY SPONSOR	ACQUISITION PROJECT CAP	PARK DEVELOPMENT/ STEWARDSHIP PROJECT CAP
Densely Populated	$2,700,000	$2,250,000
Highly Populated	$2,250,000	$1,875,000
Remaining counties	$1,800,000	$1,500,000
MUNICIPAL SPONSOR	**PROJECT CAP**	
Urban Aid	$1,800,000	$1,500,000
Densely/Highly Populated	$1,350,000	$1,125,000
Remaining municipalities	$ 900,000	$ 750,000

Nonprofit Awards

Due to the availability of funding, all eligible nonprofits were awarded the requested eligible grant.
